

Note from editing team:

Hello readers!

We originally intended *The Solidarity Dispatch* to inform as well as entertain. Unfortunately, the reality is that we do not have the resources to include a full entertainment section in this issue. We hope to start entertaining more in our second issue, however, this greatly depends on how much space current events occupy that month. It is our hope you still enjoy the newsletter even if it does only contain the news at this time.

Thank you for reading *The Solidarity Dispatch*!

A production of The Solidarity Exchange

Issue One

September 9 – October 9, 2025

Israeli-Palestinian War and West Asia

Trump is pushing for a Gaza ceasefire while the U.S. prepares for possible war with Iran.

- **NOTE:** An uneasy ceasefire was reached shortly after this writing. Prisoners and hostages both living and dead have been exchanged. The situation remains fluid as Israel has already broken the ceasefire. Therefore, we will update you on the ceasefire in our next issue.
 - Medical and food aid to Gaza remains far below required levels.
 - Hamas wants U.S. guarantees that Israel will follow the new terms and withdraw, but none have been given.
 - Israel claims to have shifted to defensive operations to support a deal, but several civilian massacres have occurred since Trump's proposal, drawing Hamas's criticism.
- Israel hasn't begun new war preparations; it is already fighting several countries and involved in other, less direct conflicts.
 - Since Oct 7, 2023, Israel has bombed Gaza, the West Bank, Lebanon, Iran, Iraq, Tunisia and even friends new and old such as Syria and Qatar.
 - Israel has killed civilians in all of these locations.

Figure 1: A map of West Asia, including Gaza and the West Bank.

Israeli PM Netanyahu on October 7, 2025 - “The renaissance war on seven fronts is a fateful war for the homeland, for our existence, and for our future.”

Signs of an American-Iranian War

- Dozens of in-air refueling ships have moved into Al Udeid, a US air base in Qatar.
- Trump signed a security contract with Qatar less than a month after Israel bombed Qatari and Hamas negotiators in Doha.
 - In an absurd twist of fate, Trump commanded that any attack on Qatar now be considered an attack on American interests.
 - Necessarily, the Israeli strike was exempt from American wrath.
 - The Iranian Revolutionary Guard Corps has stated that any aggression from Israel will result in the demise of the Jewish state.

Gaza

- The Gaza genocide continues with 40–80 confirmed casualties every day, many women and children. Northern Gaza remains under Israeli control, while heavy bombing centered in Gaza City pushes residents toward central and southern Gaza.
 - **The people of Gaza via Hamas are resisting deportation to the West or another third-party location. It is a nationalist fight for their survival against Jewish power.**

Combat in Gaza

- Hamas inflicts weekly casualties on Israeli ground forces and occasionally launches rockets with limited success, while it's unclear if Israel is consistently killing combatants in Gaza.
 - Hamas typically attacks by having a soldier approach a tank and throw an explosive into the hatch, often killing or injuring multiple Israelis at once.
 - RPG's, small arms, IEDs (improvised explosive devices) and complex ambushes (combined tactics) are also utilized.
 - Some of the recent Israeli casualties demonstrate that military leadership is forced into hasty promotions
 - For example, Shachar Netanel Buzaglo was killed in Gaza on September 22 at 27, and already held the fourth officer rank of Major.
- The constant, and near endless supply of unexploded ordnance is evident, as Israelis discover IEDs on their vehicles several times a week.
- Hamas has engaged groups they allege are Israeli collaborators, killing and wounding several.
 - Some ISIS affiliated organizations opposed to Hamas have been proposed as a part of the future Gazan governorate.

Israel continues to commit war crimes several times per day, which is evidence of a systemic issue.

- Doctor's Without Borders, Civil Defense rescue, hospital staff, The United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) and simple good Samaritans have all reported deaths and injuries from Israeli strikes in the past month. Most reports accuse Israel of deliberately targeting them.
- Outdated ordnance, such as "lighting" bombs, along with conventional explosives, are being used against civilians.

The West Bank, Israel proper, Yemen, Lebanon, Syria, Qatar and Egypt

- Israeli forces regularly conducts raids and searches throughout the West Bank.
 - Handfuls of Palestinians have been killed or injured in the past month by IDF and Israeli police raids.
- Settlers continue to harass and intimidate Palestinians, though no settler murders have been reported in the last month.
- Palestinians have carried out multiple deadly shootings and stabbings against settlers in the West Bank, with some attacks reaching Tel Aviv.
 - On Sept 18, a Jordanian aid driver shot and stabbed several Israelis at a border crossing, killing two soldiers before being killed himself.
- Israel bombs Yemen nearly weekly, while Yemen launches daily drones and ballistic or hypersonic missiles at Israel, most of which are intercepted
 - Yemen's air and seaports are repeatedly destroyed and quickly reopened, with strikes often killing dozens of civilians.

- Israel bombs southern Lebanon multiple times daily, while northern and central regions are targeted less often.
 - The strikes are violations of the Hezbollah-Lebanese-Israeli ceasefire agreement.
 - The strikes are claimed to be against Hezbollah, however, children and other civilians are often killed.
- Israel regularly conducts air raids, security operations, and drone attacks in southwest Syria near Lebanon. This area was often referenced as a weapons smuggling route for Hezbollah.
 - Syria is currently controlled by Ahmed al-Sharaa, a former ISIS, Al Qaeda, and Al Nusra Front member, fully supported by the U.S., the West, and Israel.
 - Israel recently claimed to have targeted missiles in Homs, Syria, which it alleged were supplied by Türkiye.
- On September 9, Israel bombed Doha, Qatar, targeting Hamas negotiators during daily prayer; the negotiators survived, but several others were killed.
 - Qatar has since suspended their mediation role in the conflict. Egypt will now host the negotiation teams.

Russo-Ukrainian War

Russia continues to gain momentum while NATO agitates wider war. Meanwhile, mystery drone swarms in Europe dominate last month's news cycles.

- Russia's Special Military Operation aimed to integrate the Ukrainian oblasts of Donetsk, Zaporizhzhia, and Kherson and Luhansk.
 - Russian forces currently control approximately 75%, 66%, 70% and 100% of these territories, respectively.
- Ukrainian forces appear to hold several square miles of territory in Russia's Kursk Oblast.
- Russia has also broken through the Dnipropetrovsk and Kharkiv Oblasts
- Infantry clashes occur in 25 to 50 locations daily, primarily concentrated in the Luhansk, Donetsk, and Dnipropetrovsk regions, with ongoing fighting in Kharkiv as well.

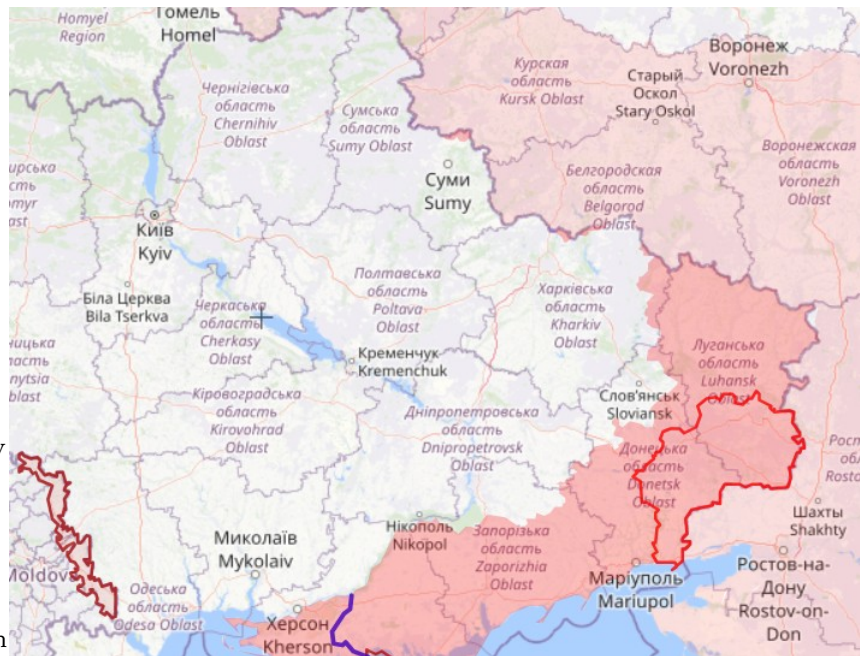

Figure 2: A map of the approximate front line on Oct 9

Lately, both Russia and Ukraine have heavily focused on attacking infrastructure.

- Russia is struggling to integrate nuclear power plants from captured territories, which are under regular Ukrainian assault.
- Meanwhile, Ukraine is systematically targeting Russian oil facilities, with attacks reaching as far as 1,000 miles inside Russia's borders.
- Russian forces have attacked trains and electrical grids throughout Ukraine. They also fulfilled a threat to strike the Chernobyl nuclear site, damaging a substation that temporarily disabled the power plant.

NATO, Poland and France

- NATO, especially France and Poland have used a rather suspicious drone swarm as a pretext to heighten tensions with Russia.
- - On Sept. 10-11, Poland claimed that Russian drones entered Polish airspace *via* Belarus, whose leader recently traveled to Kherson and referred to it as Russian territory.

- Unconfirmed drone sightings were reported across Europe, from Lithuania and Romania to as far west as Germany.
- In the following days, Poland moved 40,000 troops to the Poland-Belarus border.
- Russia countered the accusations by stating the alleged drone flight path was technologically impossible for the equipment Poland claimed to have found.
- Poland invoked a NATO Article IV security meeting, which prompted temporary air support from France, Germany, and Denmark.
- Although those allies have since withdrawn, Poland remains on high alert, particularly during Russian strikes on Eastern Ukraine.

On Sept 19, several Russian fights jets pierced Estonian airspace and quickly returned to Russia after they were met by NATO's fighter jets.

- Russia claimed the airspace violation was retaliation against Estonia and other NATO members for allegedly assisting in a strike on Russian positions.
- Foreign minister Sergei Lavrov would later say that NATO and select members of the EU are at war with Russia through Ukraine.

On Oct 1, France seized the Russian tanker *Boracay* off the Danish coast in the Baltic Sea and arrested its entire crew.

- French President Emmanuel Macron suggested, but would not confirm that the ship may have been assisted in Sept 10 Russian drone incursion into Europe.
- The ship's last reported location was off the coast of France.
- Some reports suggested that the ship was bound for India, which is a consumer of Russian oil.

Other Current Events:

- **Ongoing – War in Venezuela? –**
 - Maduro calls out Trump for organizing a regime change disguised as a war on drugs.
 - Multiple Venezuelan boats have been struck by American forces. They have all been accused of drug trafficking without evidence. Dozens of Venezuelans have been killed this month.
 - Ten F-35 fighter jets have been sent to Puerto Rico while significant naval presence has also been observed in the area.
- **Ongoing:** Violent attacks on Jews and their institutions are increasing in volume and scope across Europe. The perpetrators are primarily Muslims and are largely described as inspired by the Gazan genocide.
- **Ongoing:** Filmed ICE raids continue in a brutal fashion, however, the reality of the situation differs from its aesthetics.
 - Deportation numbers are no longer released in a systematic format by the Dept of Homeland Security (DHS) and were in fact trending below Biden's deportation levels before the data was hidden from public view.
 - A press release from DHS claimed that border crossings are down 97% from last year during the same time period.
 - 97% of those surveyed that were migrating 'in reverse' were revealed to be Venezuelan nationals.
 - Essentially, the decrease in immigration appears to be a side effect of Trump's saber rattling against Venezuela. If the situation were to return to normal, the migration would likely resume. Alternatively, a war in Venezuela could place a non-white refugee crisis on America's doorstep.
- **Ongoing/Oct 9 -** Pakistan bombs Pakistani Taliban leaders in Afghanistan.
 - Afghan-based Pakistani Taliban elements respond with the abduction and killings of 3 tribal leaders across the border into Pakistan. The violence between Pakistan and Afghanistan continues to escalate daily while India and Pakistan keep the peace in an uneasy truce.
- **Oct 9 –** Trump administration bails out Argentinian peso with \$20 billion loan.
- **Oct 7 -** The Houthi government of Yemen detains 9 UN workers in suspicion of collaborating with Israel/US/The West, bringing the total arrested to 53.
- **Oct 6 -** Former NY Times opinion writer, Zionist and Jewish lesbian, Bari Weiss is picked by David Ellison to be editor in chief of CBS News.
 - David Ellison is the son of Larry Ellison, the Jewish founder of the Oracle technology company.

- Weiss' social media presence has been statistically unimpressive before the move which surprised many. Nevertheless, Weiss' media company, *The Free Press* was also purchased by David Ellison for \$250 million as part of the deal for her to work at CBS.
- **Oct 6** - French prime minister Sébastien Lecornu resigns after 27 days of being in office. With only 14 hours between the appointment of ministers and his resignation, Lecornu becomes the shortest-serving Prime Minister in French history.
 - In the Fifth and current French Republic, Prime Ministers generally serve for several years.
- **Oct 4** - Iran executes 6 separatist nationalists for committing terror attacks on behalf of Israel.
- **Ongoing/Oct 1** – Government shutdown begins
 - President Trump is using the shutdown to fire federal workers but is facing legal challenges. As Trump publicly questions his duty to pay essential workers back pay, many supervisors have told reporters that sick and personal day usage has greatly increased.
- **Sept 28** - 24% of Moldovan voters side with pro-Russian party while pro-EU party wins 50.2% in parliamentary elections. Voter participation was at record levels
- **Sept 28** - China sentences former agricultural minister to death with a two-year reprieve for accepting bribes worth nearly \$38 million. If the minister does not commit any crimes during the next two years, his sentence will be adjusted to life imprisonment.
- **Sept 27** - National Guard troops are deployed to Portland to help in reducing crime. The move is currently facing legal challenges.
- **Sept 16** – Former presidential candidate, Calin Georgescu and 21 others indicted on attempts to undermine Romanian national security for planning violent protests after the 2024 election was canceled due to 'Russian interference.'
- **Sept 16** - Luigi Mangione, the man accused of killing UnitedHealthcare CEO Brian Thompson has state terrorism charges dismissed. Mangione is still eligible for the death penalty under federal charges.
- **Sept 10 – Sept 22** - Zionist conservative advocate, Charlie Kirk dead at 31 y/o after he was assassinated during a college speaking tour. Tyler Robinson, the accused killer does not appear to be politically affiliated. Robinson has been romantically linked to a transsexual by news media.
 - Attempts were made to make Charlie Kirk a martyr for MAGA, however the plan did not seem to be successful.
 - Government employees, especially white teachers are targeted for doxxing in a campaign led by Orthodox Jew and conservative influencer, Chaya Raichik *aka* 'Libs of Tik Tok.'
 - **VP JD Vance on those celebrating Kirk's murder** – “Call them out ... Hell, call their employer.”
 - Those targeted were accused of reacting positively to the death of Charlie Kirk.
 - Conservative influencers used the incident to begin promoting an alliance of right wingers against the so-called anti-white, pro-Palestine left.
 - Despite his career long commitment to Israel, a great deal of energy from Kirk's death was redirected against Israel as conspiracy theorists immediately fingered the rogue nuclear state as the culprit.
 - In Kirk's last days, Kirk was forced to engage with dwindling left and right wing support for Israel which led some to mistakenly believe that he was rebelling against Jewish power.
 - **Sept 22** – Pres. Trump signs an executive order designating Antifa as a 'Domestic Terrorist Organization,' and orders resources be directed at doing so.
 - The designation, which has no legal precedent, comes 11 days after Trump connected Kirk's killing to “radical left lunatics” that need to be defeated.
