## US News

### The Economy

- **Nov 12** - After 43 days, the Federal government has reopened.
  - Agriculture Secretary Brooke Rollins has insisted that among other yet-to-be announced changes, Food Stamp (SNAP) recipients will be required to reapply, apparently to combat fraud.
    - The re-certification process already takes place every six to 12 months for most recipients and their families, which number around 42 million Americans from all backgrounds.
- Health insurance premiums are still set to drastically rise in January 2026 as COVID-era Affordable Care Act enhancement subsidies were not renewed.

**In the wake of DOGE cuts and targeted mass firings, a newly created void of economic data has been replaced by selective interpretation and constant reassurances that the economy is strong, yet simultaneously still suffering from 'Bidenomics.'**

- **Nov 14** - The White House cites the DoorDash Breakfast Basics Index to claim a 14% price decrease on breakfast items which according to *Retail Brew*, consists of “three eggs, a glass of milk, a bagel, and an avocado.”
  - *Retail Brew*: “Its Everyday Essentials Index—comprising toothpaste, shampoo, toilet paper, laundry detergent, pain medicine, and diapers—remained flat.”
- **Nov 10** - In a *Fox News* interview with Laura Ingraham, President Trump defends mass immigration by denying that America has “talented people” that are needed to fill certain technical jobs.
  - In the same interview, Trump defends the presence of hundreds of thousands of foreign students in the US, claiming that around half of colleges, including Historically Black College & Universities would go out of business without this source of income.
- **Nov 21** - AI powerhouse, Oracle sees a large sell-off, resulting in a one-day 5% plunge in its trading price and a 24% decline overall in November.
  - The September gains that Oracle received from publishing its \$455 billion in **future-dated** contracts with Open AI have been not only erased, but the stock is now near its lowest point in 6 months, which matches end-of-year 2024 valuations.
  - This come just two months after Oracle attained its highest valuation ever.
- **Nov 22** - Users on Elon Musk’s social media platform *X* (formerly Twitter) began to utilize a new feature that showed which country an account was started in.
  - The feature was soon deleted as it labeled the Department of Homeland Security as an Israel-based account while also implicating numerous MAGA influencers as being based in Africa and Asia.
  - According to statements from *X* leadership, DHS’s Tel Aviv origins were the result of a glitch.
- **Nov 25** - Two National Guard members are shot while conducting street crime patrols in Washington, DC in the vicinity of the White House.
  - One of the soldiers dies while the other was seriously injured, and is still alive at this time.
  - The suspect is Rahmanullah Lakanwal, a 29-year-old Afghan national who through a third party, reportedly cooperated with the CIA during operations in his home country.
    - During the shooting incident, Lakanwal was shot by another Guard member and was subsequently detained and hospitalized.

- **Dec 2** - Rahmanullah Lakanwal is charged with murder in DC Superior Court.

### Neoliberal Culture

- **Nov 10** – *Flesh*, a book written by a Jewish author, wins the Booker Prize for English language fiction.
  - The book centers on a serial Hungarian adulterer who lost his virginity at 15-years-old to a 42-year-old married woman.

### Politics and Jews

The conservative wing of the neoliberal West appears to be pushing a counterfeit pro-white ideology. Those adhering to this ideology will typically cast Jews as part of the white race and will even encourage certain types of bigoted statements towards those who have demonstrated opposition to Israel. This may include but is not limited to white liberals and Muslims with African or Asian heritage, especially Arabs. This ideology has been spotted in white populations across Europe and even as far as Boer influencers in South Africa.

- **Dec 2** – Trump calls to deport Somalis, referring to Minnesota Representative, Ilhan Omar and the Somali community as “garbage.”
  - **Trump on deporting Somalis** - “I don’t want them in our country. Their country’s no good for a reason. Their country stinks, and we don’t want them in our country.”
  - Ilhan Omar, an ardent anti-Zionist, appears to have a secure seat in Congress.
    - Omar’s district is significantly Somali as well as African. Around 3% of the population claims Somali ancestry and 12% of the total population claims African heritage.
    - Shortly after Trump’s statements, an increase in Immigration’s and Customs Enforcement activity in Somali areas of Minnesota was observed and remains ongoing.

### South Africa, Israel and Trump

The diplomatic distance between South Africa and the US is growing. While South Africa’s genocide of whites continued unimpeded during the first Trump administration, the situation has changed, albeit only rhetorically. Some pundits believe that Trump’s interference in South Africa is less about the white Boers and more about South Africa suing Israel for its actions in Gaza.

- The 2023 South African genocide suit in the International Court of Justice was cited as evidence for producing the currently outstanding International Criminal Court arrest warrants for Israeli PM Benjamin Netanyahu and his Minister of Defense, Yoav Gallant back in 2024.
- **Nov 14** – Israeli based *Haaretz* reports that 150 Palestinian refugees showed up unannounced in South Africa. Though they were received, the source of their arrival was suspect.
  - Among many others, a South African Boer and Christian antiracist influencer reportedly blamed a South African disaster relief and humanitarian organization run by a Muslim. However, *Haaretz* reported that the operation was funded by a shadowy firm named Al-Majd which is directly linked to an Israeli-Estonian dual national.
    - **Nov 18** - *DW*: “The ‘donate’ button on the [Al-Majd] website doesn’t work. *DW*’s own research on various Bitcoin trackers — which show how much money an account has spent and received — indicate Al-Majd has only ever received around \$106 (€91) worth of cryptocurrency via the Bitcoin account it lists for donations. This is despite the fact it says it works with donations to assist the needy.”
- **Nov 23** – Trump bars US officials from attending the G20 economic summit in South Africa, citing white genocide and the summit’s Diversity Equity & Inclusion (DEI) stance. Trump has also banned South Africa from the 2026 summit, which is set to be held in Miami, FL.

### The Epstein Files

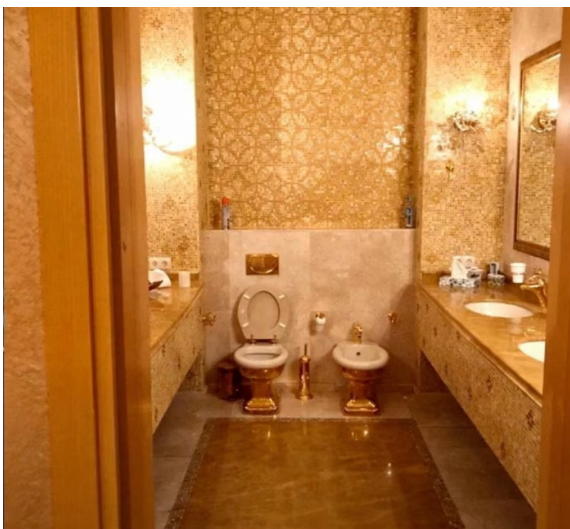

- **Nov 21** - Georgia House member and Republican, Marjorie Taylor Greene resigns from Congress, effective 2026.
  - Soon after the 2023 Israeli genocide in Gaza began, Greene became one of the most notable voices in Congress for transparency in Israeli-US relations and especially in reference to the Epstein files.
  - Greene cited threats against her family, her business and herself as reason for leaving Congress. Greene seemed to imply that this was a result of Trump calling her Marjorie “Traitor” Greene.
    - Marjorie Taylor Greene - “When common American people realize and understand that the political industrial complex of both parties is ripping this country apart, that not one elected leader like me is able to stop Washington’s machine from gradually destroying our country and instead the reality is that they, common Americans, the people, possess the real power over Washington, then I’ll be here by their side to rebuild it.”

- **Nov 22** - President Trump on Truth Social: “Marjorie ‘Traitor’ Brown, because of PLUMMETING Poll Numbers, and not wanting to face a Primary Challenger with a strong Trump Endorsement (where she would have no chance of winning!), has decided to call it ‘quits.’”
- **Nov 19** - After a unanimous vote of support in the Senate, President Trump has signed the Epstein Files Transparency Act into law.
  - The EFTA mandates the release of any and all information that does not compromise any ongoing litigation or the identities of victims.
  - **Nov 17** - A White House press release calls the Epstein Files a “Democrat hoax” but calls for their release “because [Republicans] have nothing to hide.” Earlier in his term, Trump had minimized concerns over the Epstein scandal by questioning their relevancy.
- **Nov 14** - *Byline Times*: ‘**Steve Bannon Offered Trump’s MAGA as Shield for Jeffrey Epstein**’
  - “Jeffrey Epstein – long portrayed by the Republican right as part of a deep state liberal conspiracy – was providing strategic, financial and media support to the very heart of Trump’s MAGA movement, working directly with Steve Bannon on political planning in Europe and US campaign messaging from 2018 to 2019. The payoff would be a movement that neutralised the #MeToo campaign against sexual harassment in the workplace.”
  - In various text message threads, Bannon acknowledges Epstein’s convictions and helps to build the pseudo-political MAGA, an artificial network based on the fame of Epstein’s elite associates.
    - The target audience of this MAGA alliance would seemingly include everyone who isn’t a National Socialist.
      - According to Bannon’s own text messages, this new base would include, populists, American Nationalists and Christians with a primary focus on Catholics. Naturally, a great deal of conspiracy theorists would also embed themselves into this false coalition.
      - It logically follows that this new MAGA base would replace whatever grassroots white racial energy of the 2016 Trump campaign remained.
- **Nov 19** - Larry Summers, Former president of Harvard, Economics professor and board member of OpenAI resigns from both his professorship and board membership.
  - Summers and convicted sex trafficker Epstein, who are both Jewish, were observed in the Epstein files discussing tactics for Summers to use on a woman who had not only previously rebuked the married man’s romantic advances, but was under his employ.

## Russo-Ukrainian War

### Kickback Scandal Plagues Ukraine’s Jewish President

- **Nov 15** - Ukraine’s National Anti-Corruption Bureau (NABU) has conducted “...more than 70 searches and arrested five people in a ‘large-scale operation’ with the Special Anti-Corruption Prosecutor’s Office (Sapo) to expose graft in the energy sector,” according to *The Financial Times*.
- *FT*: “Investigators said officials and business figures had conspired to force suppliers to Energoatom, the country’s nuclear power company, to pay kickbacks worth 10 to 15 per cent of each contract’s value.”

- “...some kickbacks were taken from contractors hired to build structures to protect substations from Russian drone and missile attacks.”
  - President Zelenskyy has sacked his Justice minister, German Galushchenko and energy minister, Svitlana Hrynychuk, the latter of whom was not accused of any crimes by the NABU.
  - **Nov 19** - *Organized Crime and Corruption Reporting Project*: “Ukraine’s High Anti-Corruption Court on November 18 ordered former Deputy Prime Minister and Minister of National Unity Oleksiy Chernyshov held in custody until January 16, with the option of release on bail of 51 million hryvnias (about \$1.3 million), in a sweeping energy corruption probe known as ‘Operation Midas,’ Slidstvo.Info reported from the courtroom.”
  - Israeli-Ukrainian Entrepreneur, Timur Mindich, who was accused of receiving \$359 million in kickbacks,

managed to flee Ukraine hours before his luxury apartment was searched by police. During the search, photographs were taken of the Jewish businessman's golden toilet (seen above).

- While it has been widely reported that Mindich fled to Austria, it seems he survived a Dec 10 assassination attempt in Israel, though English language Israeli media did not confirm his presence in the rogue nuclear state of Israel.

### Pokrovsk

- Pokrovsk remains a key city in the battle for control of Ukraine. According to one *AlJazeera* journalist, "Pokrovsk's fall will pave the way for the takeover of other parts of Ukraine's 'belt of strongholds' that have been fortified since 2014."
- Kyiv continues to claim that Pokrovsk has not fallen while Russia asserts they are fully in control of it. Nevertheless, both Russia and the West seem to agree that the city is both under siege and a key part of controlling the Donbas and therefore, a key part of controlling Ukraine's Eastern half.

### 28 points, 24 points and a 19 Point Mystery Plan

- **Nov 19** - A 28 point plan with a deadline of Thanksgiving was circulated, however, this plan has reportedly already been chiseled down to 19 points in the US and 24 points in the EU counteroffer.
  - Both the 24 and 28 point plans allow Ukraine to maintain a large army, at 800,000 troops and 600,000 troops respectively.
    - At the beginning of the 2022 conflict, Ukraine's army had about 250,000 troops.
  - While the US plan allowed recognition of Luhansk, Crimea and Donetsk as Russian territory. It would also have recognized all sections of Kherson and Zaporizhzhia that are under Russian control as Russian territory.
  - The European agreement postpones the discussion of territory.
  - While the American agreement allows for immediate sanctions relief and joint US-Russian reconstruction deals, The EU plan postpones sanctions relief to a "case-by-case basis."
  - Both agreements allow for NATO-like protections for Ukraine against Russian aggression.

### South America

The presence of at least a dozen navy ships including troop carriers, missile destroyers and air defense ships has been reported in the Caribbean Sea. Meanwhile, the US continues to pierce Venezuelan airspace with mock bombing runs.

### Colombia and Venezuela

- While so-called anti-narcotic airstrikes continue in the Caribbean Sea, Secretary of War Pete Hegseth is being accused of war crimes after video of a 'double tap' strike on neutralized survivors was circulated in the media. Hegseth has responded in quite a convoluted way.
  - Hegseth has denied that the action was a crime while simultaneously celebrating the admiral he has named as the commander of that particular operation. Hegseth seems determined to both explain the action as well as shift responsibility for it away from himself.
- **Dec 1** - The Dominican Republic permits the United States to use the Las Américas International Airport in Punta Caucedo, Santo Domingo, and the San Isidro Air Base to support *Operation Southern Spear*, targeting alleged drug traffickers linked by the U.S. to Venezuelan authorities.
- **Dec 8** - The Honduran attorney general issues an international arrest warrant for former president Juan Orlando Hernández, whom U.S. president Donald Trump recently pardoned after serving around 1 and a half years of a 45-year sentence for drug trafficking in a West Virginia prison.
  - According to reports, Hernández trafficked over 400 tons or around \$10 billion of cocaine into the United States in his time in the drug trade.
- **Both President Maduro of Venezuela and President Petro of Colombia have called for a return of 'Gran Colombia,' the early 19th Century country that included modern day Colombia, Venezuela, Ecuador and Panama.**
  - Trump has begun to menace Colombia with threats of intervention over the country's alleged connections to drug trafficking.
    - Unlike Venezuela, Colombia is actually a major source of illegal drugs around the world, including North America and Europe. The UN's World Drug Report states that around 40-50% of the world's coca bush cultivation takes place in Colombia. The coca bush is the main ingredient in cocaine.
    - **Nov 11** - Colombian President Petro halts intelligence sharing with the United States until Caribbean airstrikes cease.

- **Dec 2** - Colombian authorities detain 17 children and nine adults belonging to the fundamentalist Jewish cult Lev Tahor, citing concerns about the safety of the children in the group. Five of the children had American and Guatemalan passports, and all 26 members were flown to New York to await investigations into their welfare.

## West Asia/Middle East

- **Iranian and Indian media have reported that the advanced GBU-39B smart bomb has been sent to Iran for disassembling.**
  - **Nov 24** - The munition was used in an onslaught that killed Hezbollah's Military Chief. It failed to detonate and was defused, photographed, and disassembled. Soon after, it was reportedly shipped to Iran.
- **In an astoundingly disrespectful move, the US continues to demand the return of the GBU-39B that was illegally dropped on Lebanon by the rogue nuclear state of Israel.**
- **Israel continues to indiscriminately attack Lebanon, Gaza, the West Bank and Syria, killing dozens daily across the region. Militarily, there is no active resistance fighting Israel at this time.**
  - Attacks in Syria seem focused on the Southwest.
  - Francesca Albanese, UN human rights rapporteur for the Palestine region recently told independent reporter Tucker Carlson that shipments of humanitarian supplies to Gaza remains at around 25% of what is necessary.
  - **Dec 4** - Yasser Abu Shabab, leader of the Israeli-backed and anti-Hamas Popular Forces, is fatally shot in Rafah, Gaza, by unidentified gunmen.
    - Shabab became a renowned Zionist collaborator when Israeli bombing freed him from a Gaza prison in October 2023.
    - Abu Shabab has been repeatedly accused by multiple authorities of having pledged allegiance to ISIS.
  - **Nov 30** - The Israeli military claims to have killed more than 40 Hamas militants over the past week who attempted to exit a tunnel in eastern Rafah.
    - It is unknown if these are part of the very same 200 fighters that have been trapped in a tunnel in the vicinity of Rafah.
  - **Nov 28** - The offices of the Italian newspaper *La Stampa* in Turin are stormed by pro-Palestinian protesters.

## Afghanistan-Pakistan

No matter where the timeline of this conflict may head, it seems impossible to separate these events from the presence of the Bagram air base in Northeastern Afghanistan. There has been an abundance of remarks from the Trump administration announcing their desire to repossess the abandoned air base, which holds several helicopters, a C130 troop carrying airplane and tens of thousands of small arms.

The *Washington Post* reports that many of these small arms have been used against Pakistan by Taliban elements.

- In what may signal long term commitment to war, the Pakistan Army chief's power was expanded and re-organized into the Chief of Defence Forces position, with command over all military branches.
  - The position is a 5 year term with **lifelong legal immunity**.
- While Pakistan continues open warfare on the Pakistani Taliban, Pakistan also continues to bomb Afghanistan. Bizarrely, opposing border guards do not regularly engage one another, although minor confrontations have turned into localized gunfights.
  - Afghanistan has not declared war on Pakistan.
  - Suicide attacks and small arms ambushes from suspected Pakistani Taliban have become a regular occurrence across Pakistan.
- **Early December** - Several attacks on Tajikistan from the Afghan border killed 5. Some of victims were Chinese nationals.
  - This attack is similar to other attacks facilitated by the ISIS affiliate, ISIS-K, which opposes both the Tajikistan and Afghan governments.
